WHAT PEOPLE SAY

HARRY

Singer/Song-writer

Spotlight Multimedia have helped me excel in my passions in music and media through their exemplary courses and excellent facilities. Both Brad and Matt have been extremely helpful to me with the run-up to my debut EP release. They have helped guide my production in the right direction as well as helped me with editing my debut single's music video and album artwork. I am looking forward to learning more with them in the near future.

SUE HAGAN

18-30's Project Leader, Havering Mind

The courses really helped with our client's confidence and self-esteem. They learnt new skills and created new interests whilst socialising with others. The friendly and welcoming environment at Spotlight enabled our clients to overcome any previous fears and challenges surrounding learning. Most of our clients had no previous experience but each one finished with a qualification. I look forward to our next group of clients attending as I know they will enjoy these fun and informative courses.
